King/Queen or President _____

Sports _____

Some notes for your Mini Project.

You can use some of the headings from the fact sheet to learn a little more about Mexico and it's people and culture for your mini project.

Here are a few more topics you might like to include but of course you can add what you would like or whatever you are interested in.

Customs/ Traditions/ Music / Language/ Currency (it's money)/ People / Weather (Climate) / Nature-wildlife / domestic animals / Connections with Ireland.

Please lay out your project on the A3 paper that has been sent home. Please research using books and encyclopaedia as well as the internet and remember to write your own sentences and not copy whole sections of information from it.

You can also include drawings, paintings, pictures or diagrams or whatever you wish to make your project engaging (attractive and interesting) for the reader! We can display and present the projects in February when we are all back in school! Don't forget your capital letters and full stops and 2nd class please write in joined handwriting. Here are some links to get you started! Have Fun!
